PERSONAL PROFILE

Computer Science Engineering student with a strong foundation in SQL, database management, software development and web technologies. Experienced in developing real-world web applications, automation solutions and database-driven systems. Strong communication and leadership skills with experience working with Indian and international clients. Eager to apply technical and problem-solving skills to build reliable, data-driven software solutions.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science Engineering — 2027 (Ongoing)
Jawaharlal Nehru Engineering College, MGM University, Chhatrapati Sambhajinagar (CGPA – 7.2)
Higher Secondary Education — June 2025
SBES College of Science, Chhatrapati Sambhajinagar (64%)
Secondary Education — 2021
Bhagyalaxmi Sarla Gurusahani Memorial School (89%)

EXPERIENCE

Jiiga Consultancy – Software Intern | June 2025 – August 2025 | 3 Months
- Assisted in developing and maintaining company and client websites, worked on frontend pages and forms.
- Wrote basic SQL queries (SELECT, INSERT, UPDATE, JOIN) on MySQL databases to fetch and manage website data.
- Built small automation scripts to reduce repetitive manual data entry and routine internal tasks.

Freelance Web Developer | Project-Based
- Developed web solutions for Indian and international clients based on their functional requirements.
- Handled frontend development, backend integration, automation and deployment of client projects.
- Communicated directly with clients to gather requirements, manage deadlines and deliver final project deliverables.

PROJECTS

NutriBowl – Food Supply & Restaurant Management System | MySQL, SQL
- Designed a relational database for restaurant operations covering customers, branches, employees, menu items, ingredients, suppliers, orders and payments.
- Managed recipe, inventory and supplier relationships while maintaining data consistency across the system.
- Created SQL queries and reports for sales, inventory and supplier analysis.

EventHub — Event & Ticket Management System | React, Node.js, Express.js, MySQL
- Developed a system to manage events, tickets, users, bookings and payments.
- Created the MySQL database and Express.js APIs for managing events and bookings.
- Added simple reports for ticket sales, bookings and popular events.

Chicago Yachts – Yacht Charter & Booking Platform | Client Project (In Progress)
- Building a yacht charter and booking platform for a Chicago-based yacht rental business using Next.js, React, TypeScript, Tailwind CSS, PostgreSQL and Prisma ORM.
- Implemented yacht browsing, real-time availability checks, date and time-slot selection, dynamic pricing and online booking with Stripe payment integration.
- Developing an admin dashboard for bookings, customers, fleet, pricing, payments and owner confirmations, along with AI-assisted owner communication over Twilio SMS for booking verification.

TECHNICAL SKILLS

Programming: Python, Java, C
AI: OpenAI API, AI Agents, Prompt Engineering
Frontend: HTML, CSS, React.js, Bootstrap
Backend: MySQL, SQL, Firebase(Realtime DB and auth)
Cloud: Firebase, API Integration
DevOps: Git, GitHub, CI/CD

SOFT SKILLS

Collaboration & Team Work | Public Speaking & Presentation | Leadership Abilities | Efficient Time & Task Management

EXTRA CURRICULAR ACTIVITIES & EXPERIENCE

- TEDxMGMU: Team Member.
- CSE Technical Event: Event Lead and Host.
- Razzmatazz: Event Host.
- DY Patil Venture Hackathon: Led a venture hackathon focused on entrepreneurship.
- Worked with Indian and international clients through freelance web development projects.
